Year Three: Digital Citizenship
## Knowledge Organiser

The Big Idea

Digital citizenship means being a good and safe person when using the internet. This includes being kind to others, protecting your personal information, asking for permission before doing things online, and being careful about what you share. It's like being a good citizen in your community, but online!

Vocabulary

digital citizen
world wide web
health and wellbeing
digital footprint
online bullying
online reputation
self-image
identity

Digital Footprint

Your digital footprint shows what you have done on the internet. It's important that you only put things on the internet that you are proud of.

Identity

Identity is who you are, like your name, what you like, and what makes you special.

Trust vs Like

Trusting somebody is very different to liking them. It is important to be careful about who you trust online.

Feelings

People's feelings can be hurt by what is written online. Remember, what is funny to you may not be funny to others.

Personal Information

It is very important to be careful about what personal information you share online.

Appropriate Behaviour

It is important to behave appropriately online. Remember, what you post can stay there for a very long time.

Online Bullying

Online bullying can appear in different ways. How can we get help if this happens to us?

Health and Wellbeing

Spending too much time using technology can have a negative impact on us.
