

Enrichment

Subject Leader Report 2024-2025

Subject Leader: Jodie Tyrer

Autumn Term

At Masefield Primary School, the Enrichment program for Key Stage 1 children has provided valuable opportunities to engage in activities that support both academic growth and personal development. This term, children participated in activities such as **Thrive with Mrs Willett** and **Maths with Mrs Greenhalgh**, which have been carefully designed to enhance their emotional wellbeing and foundational skills.

Thrive with Mrs Willett- Thrive sessions have offered children a safe and nurturing space to explore their feelings and emotions. Through interactive activities and thoughtful discussions, pupils learned about recognizing and understanding their emotions. They were introduced to strategies to support mental health and wellbeing, helping them to build resilience, self-awareness, and positive coping mechanisms. These sessions have been instrumental in fostering a sense of security and confidence, equipping children with tools to navigate their emotional world effectively.

Maths with Mrs Greenhalgh- Maths sessions focused on making basic number skills engaging and accessible for young learners. Through fun, hands-on learning activities, children explored concepts such as counting, addition, subtraction, and number recognition. Using practical tools and games, pupils developed their confidence in early mathematical skills while building a strong foundation for future learning. These interactive sessions encouraged a positive attitude toward maths and nurtured problem-solving abilities.

PE with Miss Jones and Mrs Cooper- In Enrichment, PE with Miss Jones and Mrs. Cooper is an exciting and dynamic experience that combines fun and fitness. Miss Jones brings energy and creativity to the sessions, introducing engaging activities that encourage teamwork and individual growth. Meanwhile, Mrs. Cooper's supportive approach ensures everyone feels included and confident to participate. Together, they create an inclusive environment where students can build physical skills, boost their wellbeing, and enjoy the thrill of staying active.

The Enrichment program for Key Stage 1 at Masefield Primary School has provided a well-rounded approach to both personal and academic development. Thrive sessions have supported children's emotional growth, while maths activities have laid the groundwork for lifelong learning. Together, these opportunities have ensured that pupils feel confident, capable, and equipped to thrive both in school and beyond.
